THE MADRAS VETERINARY COLLEGE PROSPECTUS.

As there appears reason to believe that intending candidates for employment in Government service are in many cases not aware of the existence of the Madras Veterinary College and of the prospects offered by a veterinary career, the following prospectus of the college is published for general information. The rules of the college and the scale of the provincial and the subordinate veterinary service are liable to be altered if need requires at any time.

1. The college affords theoretical and practical instruction in subjects appertaining to the veterinary profession with the object of training men for service under Government, municipalities, local board or private employers. The staff of the college consists of a Principal, an Assistant Principal, three lecturers, two assistant lecturers and a subordinate establishment. The responsibility for the discipline and management of the college is vested in the Principal who is under the control of Government in the Revenue Department. Full clinical and other facilities are afforded to meet the education requirements of students preparing for the diploma in Veterinary Science. A veterinary hospital, museum, library, shoeing forge and students' hostel are attached to the college.

2. Candidates are eligible for admission without distinction of caste or nationality. They must not be under 18 years of age at the commencement of the term for which admission to the college is desired. In ordinary circumstances, no person over 22 years of age will be admitted as a first student. Students are admitted to the college by selection which will be made by the Principal. Applications for admission should be made in writing in the prescribed form printed at the end, and they should be submitted so as to reach the Principal not later than the 5th December of each year and should be accompanied by the following certificates :—

(*a*) of age,
(*b*) of physical fitness and moral character,
(*c*) that the applicant has passed the Matriculation Examination of an Indian University under the old regulations or that he has obtained 45 per cent of marks in English and 35 per cent in other subjects in the School Final Examination, except in the case of Europeans and Eurasians who may be admitted, though unpassed, at the discretion of the Principal.

3. In the event of a candidate being selected, he will be served with a special notice informing him of the particular day and hour when and the place at which he should present himself for personal selection. Candidates when admitted will be considered to be on probation for the first two months of the course and may be removed if found to be not satisfactory.

4. *Course and study and curriculum of instruction.*—The course of study for the diploma ordinarily extends over three years. The students of each year's course form a separate class. The number of students in each class is ordinarily limited to 30. Government have temporarily raised the number to 40 for five years commencing from 1916. Promotion from one class to another is made with reference to the results of the annual examinations. A student who fails in the class examination for two consecutive years shall be removed from the college.

The curriculum of instruction is as follows :—

(i) *First year*—

(1) Anatomy (up to Arthrology); (2) Elementary Chemistry; (3) Elementary Botany; (4) Materia Medica; (5) Handling of animals; (6) Pharmacy (Theoretical and Practical)

During this year students are given practical instruction in nursing, dressing, bandaging, casting and securing animals as well as in the names of the instruments and appliances used in ordinary practice.

(ii) *Second year*—

(1) Anatomy (the whole, including Comparative Anatomy); (2) Physiology; (3) Hygiene (including Breeding and Rearing); (4) Principles of Horse-shoeing; (5) Theoretical Veterinary Medicine and Surgery; (6) General nursing and instructions in the use of instruments and appliances.

During this year students are required to attend hospital practice and receive clinical instruction. They are also required to attend at the Forge and Pharmacy, to carry out directions and to perform operations on the dead subject.

(iii) *Third year*—

(1) Veterinary Medicine; (2) Veterinary Surgery; (3) Diseases of dogs; (4) Operative Surgery; (5) Therapeutics (including Toxicology); (6) Meat and milk inspection; (7) Soundness of horses and ageing of domesticated animals.

During this year students are required to perform the duties of clinical clerks and dressers, to perform operations on dead subjects, and afterwards on living animals, to conduct *post mortem* examinations and generally to carry out practically all the duties appertaining to their profession. Students who hold the diploma in Agriculture are not required to attend the first year's course of study, but are examined in the subjects of both the first and second year courses at the end of their first year of attendance at the Veterinary College.

Students who have passed in Chemistry or Botany in the Intermediate or B.A. Examination need not attend the course in Elementary Chemistry or Botany, as the case may be at the Veterinary College.

All students are required to undergo a course of equitation and gymnastics. A student absenting himself without leave from a lecture or from a practical gymnastic or riding class is liable to be fined.

5. The tuition shall be free to all students who execute an agreement binding themselves to serve Government for five years, if required, after completing their course in the college satisfactorily. All others will be required to pay tuition fees in advance of each term at the rate of Rs. 40 per annum. A fee of Re 2 per term is also payable by each student, whether free or paying, to meet the cost of sports.

6. Government ordinarily allot thirty scholarships in each class annually, two of the monthly value of Rs. 30 each, which will be reserved for graduates of a University preferably those who have taken a Science degree, and the remaining twenty-eight of the monthly value of Rs. 10 each, but they reserve the right to decrease the number or alter their value, if necessary. The number of scholarships on Rs. 10 per mensem has been temporarily raised from 28 to 38 for five years commencing from 1916. Scholarships in the first year will be awarded by the Principal on the results of the first three monthly examinations. Scholarships tenable in the second and third years are ordinarily allotted on the results of the monthly and annual examinations. A student already in the enjoyment of a scholarship from a local body or a private person is not eligible for a Government scholarship. All scholarships are conditional on the good behaviour of the holders. Students who are in the enjoyment of the Government scholarships are required to refund the amount which they have received as stipends and also to pay tuition fees at the rate of Rs. 480 per annum, if they leave the college without sanction or are expelled for misconduct.

7. *Terms and time-table*.—Each year comprises two terms—a spring session from January to March and an autumn session from July to December. Tables of the times and subjects of lectures to which both teachers and students should adhere will be posted on the notice board at the commencement of each term.

8. *Vacations and holidays*.—(i) In addition to the miscellaneous public holidays, the students are allowed the following vacations and holidays :—

Midsummer vacation (three months),
Mid-session holidays (one week),
Christmas and Easter holidays (gazetted).

Students are required to attend hospital cases in turn during vacations.

(ii) Leave of absence is granted by the Principal only. Scholarship-holders may, at the discretion of the Principal, be granted casual leave, with allowances, for not more than five days at a time or ten days in the year, but no casual leave will be granted in continuation of other holidays with allowances. Any further leave to scholarship-holders except sick leave for a month will be subject to stoppage of scholarship. Leave of absence in each case of illness will be recognised only on the production of a certificate from a duly qualified medical practitioner.

9. *Examinations*.—Examinations are conducted orally and are held annually in December in all the classes. For admission to the examination candidates must have studied at the college for such times as may be prescribed and have attended at least three-fourths of the year's lectures and have done practical work in their respective classes.

10. *Diplomas and certificates*.—A diploma as graduate in Veterinary Science is awarded to students who have gone through the full course of three years' study at the college and have passed the final examination.

Such of the students as are elected clinical clerks and prosectors and perform their duties satisfactorily are, in addition, awarded special certificates on passing the final examination.

11. *Miscellaneous*.—The hostel attached to the college provides accommodation for 43 students. Students are at liberty to make their own arrangements as to their board and lodging. A monthly rent of Rs. 2 for a single room in the new extensions and Re. 1 for a single room and As. 12 for a double room, (i.e., a room accommodating two students) in the old block will be charged to each student who elects to take up his lodging in the college hostel.

The Standard Barometer and Thermometers are read at 8 a.m., 10 a.m., 4 p.m. and 8 p.m., and the daily means are obtained by the application of hourly corrections, deduced from twenty years' observations. The cistern of the Barometer is twenty two feet above the level of the sea, and the receiver of the Rain Gauge is two feet from the ground. The wind, rain and general weather registered are for the current Civil Day—from midnight to midnight.

The total quantity of rain collected since January 1st is 19·63 inches, the average due for the same period being 18·92 inches.
